

Ezhava Pooja Prakash

Technical Writer | Cloud & Storage Documentation Specialist

 [9979532109] |  [poojaprakash289@gmail.com]

Portfolio: <https://poojaprakash289-ux.github.io/cloud-ai-api-docs-/>

PROFESSIONAL SUMMARY

Technical Writer with 5+ years of experience in Storage and Cloud domains, specializing in enterprise infrastructure and SaaS documentation. Experienced in creating structured, user-centric documentation including user guides, release notes, architecture documents, and marketing collateral.

Skilled in leveraging AI tools to accelerate documentation workflows, improve content quality, and reduce turnaround time by 25–30% while maintaining technical accuracy.

Strong exposure to IBM storage systems, cloud migration platforms, structured authoring (DITA XML), and Agile documentation environments.

EDUCATION

B.Tech – Computer Engineering (2013 – 2017)

S.P.B Patel Engineering College, Mahesana

Higher Secondary (CBSE) (2012 – 2013)

Coast Guard Public School, Daman

Secondary School (CBSE) (2010 – 2011)

Coast Guard Public School, Daman

CORE COMPETENCIES

Documentation & Content

User Guides & Admin Manuals, Release Notes & Feature Documentation

API & Web Help Documentation, SOPs & Process Documentation

Knowledge Base Articles, Case Studies & Solution Briefs

TECHNICAL SKILLS

Documentation Tools:

RoboHelp, Oxygen XML (DITA), MS Word, Excel, PowerPoint, Snagit, Adobe

Technical Exposure:

IBM Storage (SVC, XIV, Flash, V7000, A9k), Brocade Switches, Linux, Windows, AIX, NAS, Cloud-based SaaS Platforms

AI Tools:

AI-assisted drafting, content restructuring, grammar optimization, automated outline generation

PROFESSIONAL EXPERIENCE

Corent Technology | Chennai (September 2024 – Present) - Technical Writer

- Develop comprehensive documentation for cloud-based MaaS (Scan, Assessment, Migration) platform.
- Create Web Help documentation using RoboHelp aligned with MSTP standards.
- Author user guides, prerequisites, release notes, and internal process documentation.
- Prepare customer-facing collateral including sell sheets, solution briefs, and case studies.
- Develop architecture diagrams and workflow visuals to support customer clarification and internal teams.
- Coordinate with product management, engineering, and sales teams to align documentation with release schedules.

IBM / Kyndryl | Chennai (March 2019 – October 2022) - Technical Writer

- Documented and managed large enterprise storage environments supporting critical business operations.
- Created standardized templates and onboarding checklists for IBM storage devices.
- Authored user guides, FAQs, troubleshooting documents, and operational runbooks.
- Documented hardware replacement procedures (HBA, SFP, cables) and decommissioning workflows.
- Allocated switch ports for new build servers and maintained accurate documentation records.
- Trained freshers on storage concepts, operational procedures, and documentation standards.
- Ensured documentation alignment with SLA requirements and enterprise governance processes.

KEY ACHIEVEMENTS

- Standardized templates and review processes, improving documentation consistency.
- Reduced documentation turnaround by 30% through AI-assisted drafting.
- Supported enterprise storage operations with accurate, structured documentation.

CERTIFICATIONS

- ISTQB – Foundation Level
- FinOps Foundation Certification
- Google Certification
- C Programming Workshop
